DETAILED ACTION

1. Claims 1-13 are pending in the application.

Priority

2. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 120 as follows:

An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence(s) of the specification or in an application data sheet by identifying the prior application by application number (37 CFR 1.78(a)(2) and (a)(5)). If the prior application is a non-provisional application, the specific reference must also include the relationship (i.e., continuation, divisional, or continuation-in-part) between the applications except when the reference is to a prior application of a CPA assigned the same application number.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 2, 9 and 10, it is not clear what type of composition is being referred here?
Is it a pharmaceutical composition?, cleaning composition? or something else?

In claims 3-8 and 11-13, the term –method---is vague since this term is usually used for treatment. Claims 3-8 and 11-13 are directed to a process for preparing 7-fluoro-3-

fluoromethylsulfinyl-1-methyl-4-quinolone, 7-fluoro-3-fluoromethylthio-1-methyl-4-quinolone and 7-fluoro-3-difluoromethylsulfinyl-1-methyl-4-quinolone, respectively. The applicants are suggested to use the language e.g; for claim 3, --- A process for preparing 7-fluoro-3-fluoromethylsulfinyl-1-methyl-4-quinolone wherein 7-fluoro-3-fluoromethylthio-1-methyl-4-quinolone and m-chlorobenzoic acid (MCPBA) are reacted in a solvent under conditions such that 7-fluoro-3-fluoromethylsulfinyl-1-methyl-4-quinolone is produced.

Double Patenting

5. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

6. Claims 1 and 9 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 2 and 10, respectively. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

7. Claims 1-13 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-11 of prior U.S. Patent No. 6,767,914. This is a double patenting rejection.
